

Introduction to printing with Spoonflower

Workshop Supply List

A laptop computer with all power cords and accessories for operation.

Note: Flash must be enabled to edit your photos in the Spoonflower software. Also, Spoonflower currently does not support an app, so the use of tablets and phones are prohibited for classwork.

Five to ten (or more) photos saved on your laptop (.jpg format) that you would like to edit and manipulate. Please create a separate “Spoonflower” folder on your computer and save all of your images there. It is helpful to have them all in one place.

Set up an account on www.spoonflower.com so that you are ready to log in and upload images. A sample image for you to upload will be emailed to you a couple of weeks before class.

A notebook and pen/pencil for taking notes
